# LOGIC MULTI-FEEDER

Feed livestock quickly. Drop feed at the best spacing to avoid food trampling. Keep livestock apart and to eat without stress. Handles nuts, cobs, rolls, pencils and most home mixes. 365 litre hopper capacity, or 625 litres with extension kit.

Model LMF870K including 25x10-12 wheels and tyres, tonneau cover, sheep fender and mudguards.

- ✓ **Saves Time** No bagging of feed, fill straight from a hopper, feeds livestock quickly
- ✓ **Saves Money** Buy feeds in bulk, or home mixes stored on floor
- ✓ **Saves Waste** Drop spacing ensures livestock don't trample feed and eat every bit
- ✓ **Easy To Use** Simple set up, thereafter fill the hopper for several groups of livestock
- ✓ **Accurate** Hopper shape and drop chute ensures consistent flow rate and drop size
- ✓ **Controllable** Drop counter with on/off switch and reset button - it's a piece of cake!
- ✓ **Reliable** Proven technology with simple design used over many years
- ✓ **Robust** Strong all welded construction, galvanised for long life
- ✓ **Options** Tandem axle, road legal, various covers, tyres and mudguards etc.
- ✓ **Easily Towed** Use any suitable vehicle - control box allows operation from the driver's seat

LMF570K equally at home feeding cattle.

Part of a large flock of sheep feeding typically as the Logic Multi-Feeder is used. This demonstrates how the sheep naturally feed head to head in small groups with plenty of space between each pile of food.

The control box can be mounted in a favourable position close to the driver. Shutter operation can be stopped and started without losing the drop count, allowing the operator to make the best use of suitable ground. The digital display automatically shuts down 15 minutes after last use preventing unnecessary drain on the vehicle battery.

**Proven on thousands of farms**

LMF570K including 22x11-8 wheels and tyres with tonneau cover, sheep fender and mudguards.

Drop size is simply adjusted with no tools required.

Once the calibration has been completed, which takes about 5 minutes, the operator knows how much is being dropped in each pile. Thereafter the drop counter will record how many drops have been given in any one batch to calculate the total amount fed. After that it is a question of maintaining a forward speed that will give the required spacing between heaps to suit the type of livestock being fed.

Fill from a bulk store.

Home mix.

Ground clearance is important and is the same as a trailer, with no components below axle height that could be damaged by rocks, mud and snow.

Optional hard top bale rack LMF112.

LMF570TA Tandem Axle model with optional LMF108 hopper extension and LMF109 tonneau cover.

Designed and manufactured in the UK to provide top quality equipment at outstanding value for money

# BALE TRAILER LBT100

This tipping bale trailer has a dual pivot system to make loading easy for bales of hay, straw and silage up to a maximum of 600kg.

The LBT100 features top quality 23x10.5-12 low ground pressure wheels and tyres to help with cross compliance issues in soft ground. It also has a galvanised chassis and swivel hitch for additional safety.

Geared winch (below) enables effortless lifting and controlled unloading.

Ideal for livestock farms or equestrian units where one person can safely carry bales, towed by any suitable vehicle.

SST407TP model, 1500mm long including side-hinged mesh tailgate and 22x11-8 flotation wheels and tyres.

SST457TATP tandem axle model, 1800mm long including side-hinged mesh tailgate.

**LOGIC LIVESTOCK TRAILERS** are the result of innovative manufacturing techniques to provide a unique balance of strength with minimum unladen weight for durability and fuel economy for the towing vehicle. They feature an all-welded monocoque construction, galvanised for long term protection, bolt-in stub axles for ease of replacement, bead-lock wheel rims for added safety, top quality wheels and tyres and swivel hitch for Health & Safety compliance.

OXR800 model fitted with optional XT105 solid headboard, XT202 drop down mesh sides kit, XT106 mesh ramp tailgate and XT202-10A support wire kit (right).

OXR400TA fitted with optional sides and divider gates.

**BOWSER RANGE** - provides an easy way to get liquid feeds or water to the location of your choice. Supplied as trailed, deck mounted or 3 point linkage models. They feature strong rotationally moulded tanks of 270lt and 600lt capacity, with 2" dia outlet hoses and 1/4 turn taps.

**TRAILED BOWSER** - SLB400 270lt capacity with low ground pressure 22x11-8 wheels for use on soft ground.

**DECK MOUNTED DMB300** (above) 270lt capacity, seen here mounted in a UTV cargo bed allowing space for other feeds or materials. It could be easily fitted into a pick-up or trailer towed by any suitable vehicle.

# CONTACT 2000™

the most efficient weed wiper system available

**CONTACT 2000 WEED WIPER CTF250DSK** - Targets all taller weeds including rush and bracken, saving grass and clover. Unique brush applicator has a combing action ensuring effective chemical transfer in one pass.

## TRACTOR MOUNTED GRASSLAND MODEL

CTM600W - 6.0m wide with height control wheels and hydraulics set to 'float'.

Folded to transport position easily passes through a 3.0m gate.

## ELECTRO-BROADCASTER

EBC-TFS120PSL - designed for the grassland farmer with low rates achievable for grass, rape seed, clover and stubble turnips etc. Large range available.

**GROUND DRIVEN SPREADER LDS240** - simple and robust, spreads up to 15.0m. Other models available.

**HANDLEBAR MUFFS ATV005/B** - with thermal lining and good access to controls.

**WINDSCREENS ATVXXX** - made from durable materials to provide protection from inclement weather.

**POWER BRUSH S215H** - with a working width of 1.35m for ATVs, ideal for roads, yards and footpaths, etc. UTV model, UTS215 working width of 1.68m.

**YARD SCRAPER S210** - 1.3m wide. For ATVs, UTS210-1.8m wide.

**GROUND DRIVEN SALT SPREADER GDS150R** - will spread 'Rock Salt'.

**SNOW PLOUGH UTS201** - 1.8m wide with electric raise and lower. It has a rubber wearing strip and 'break-back' safety system. ATV and UTV models available.

**SAFETY HELMET ATV032/033** - allows the user to wear spectacles and use a mobile phone.

**HEATED GRIPS ATV049L2** - Off/High/Low, settings ideal for varying conditions.

**Videos Available Online**
